Self-taught web developer with proven ability to build for the modern web while using cutting-edge technologies. I create fast, highly performing and accessible Jamstack websites that are responsive and can adapt the layout to a variety of devices and screen sizes.

TECHNICAL SKILLS

`HTML` `CSS`

`Bootstrap` `jQuery`

`JavaScript` `React`

`React Native` `Gatsby`

`GraphQL` `Git`

PERSONAL ATTRIBUTES

- Passionate about web development and new tools and technologies
- Impeccable organization, self-motivation, and problem-solving skills
- Ability to work effectively in a multicultural environment
- Highly collaborative mindset
- Strong written and verbal communication skills (English and Italian)

WORK EXPERIENCE

Junior JavaScript Engineer
blogfoster

11/2019 – Present   *Berlin (Germany)*

Tasks
- Using JavaScript and the React ecosystem to build technology that helps professional bloggers and social media influencers analyse, manage and effectively monetize their reach.

Open Source Web Developer
Freelance

10/2017 – Present   *Remote*

Tasks
- Designed and developed a responsive landing page built with Gatsby, CSS Grid, styled-components, GraphQL and Contentful ↗
- Designed and implemented a responsive restaurant website using Gatsby, Contentful, GraphQL and styled-components ↗
- Designed and developed a responsive travel agency website using Gatsby, Markdown, GraphQL and styled-components ↗
- Created a clean and minimal portfolio website using Gatsby and GraphQL and styled it with styled-components ↗
- Used the static site generator Gatsby, Netlify CMS, GraphQL and Web Animations API to build a blazing-fast and minimal blog ↗
- Designed and implemented a functioning and responsive weather app using React, Bootstrap and Open Weather API ↗
- Created open-source side projects listed on my GitHub profile ↗

Front-End Developer
Fornace ↗

03/2019 – 09/2019   *San Pietro in Cariano (Verona), Italy*

Tasks
- Used React Native, while working on a team of 4 developers, to build an iOS and Android app for an Italian large-scale retailer with over 100 directly managed supermarkets
- Utilised the latest HTML5 and CSS3 technologies to build a responsive landing page with smooth scrolling and visually interesting animations
- Maintained existing websites and built new ones from the ground up using Wordpress and company's custom Content Management System

EDUCATION

Self-Education on Online Coding Schools
freeCodeCamp, Udemy, tylermcginnis.com, wesbos.com, leveluptutorials.com

05/2017 – Present   *Remote*

MSc with Summa Cum Laude in Accounting and Management
University of Siena

11/2014 – 02/2017   *Siena, Italy*
